HORMETA High redefinition cream - FEMINISSIME

The first comprehensive anti-aging care, developed to compensate age-related and hormone change-related skin deficits, in addition to those caused by outside forces...

The HORMETA exclusive combination of natural active ingredients – amber algae, argan oil, soy, wild yam, and mineral – acts in synergy on noticeable skin deficits...

Exceptional redensifying and reconstructive power with amber algae...

By re-energizing cell activity slowed down by hormone changes, isoflavones promote glycosaminoglycane synthesis and re-initiate collagen and elastin production, dermis support structures...

Cutaneous architecture is reinforced. Your skin is plumped, wrinkles fade away and facial lines tighten up.

Moisturizing*, anti-skin dryness and regenerating action with argan oil, millennium's old liquid gold...

A prodigious, rare and precious oil, manually extracted from the fruit of the Argan tree, a tree growing in the Moroccan desert surviving the harshest of dry weather conditions...

It re-establishes the hydrolipid equilibrium (water/lipids) of the skin, providing it with comfort and suppleness.

Containing 80% non saturated fatty acids rich in linoleic acid (the most sought after of the non saturated fatty acids) and rich in tocopherols (Vitamin E), virgin argan oil has been known for centuries for its exceptional properties...

It moisturizes*, while restoring the skin barrier; nourishes even the driest skins with essential fatty acids; regenerates, by energizing vital cell activity.

A lipid and texture enhancer, FEMINISSIME cream replenishes your skin with a feeling of absolute comfort. Nourished intensely, it regains its silky feel.

Powerful anti-oxidizing and remodeling action

A firming effect : restores skin elasticity and firmness, smoothes skin with a natural phytosteroid complex of soy and wild yam.

HORMETA research has selected a natural phytosteroid complex of soy and wild yam for its proven ability to restore skin elasticity and firmness and smoothes wrinkles. Soy extract protects collagen and elastin fibers, components in dermis structure.

Wild yam extract, distinguishing itself with its high content of diosgenine, fights skin oxidative aging by neutralizing free radicals generated from outside attacks (sun, stress, tobacco...) and stimulates remodeling enzymes.

The result is spectacular: wrinkles are smoothed over, the face appears sculpted, its contours are redefined.

"Anti-dullness complexion" action

By recreating the physiologic balance jeopardized by hormone changes, the unique formula of FEMINISSIME Cream promotes skin exchanges and activates cell renewal.

With renewed vitality, your skin gains in radiance, it is visibly lighter and brighter.

An added supplement of minerals, essential nutrients...

The Trace elements complex from HORMETA Laboratories helps compensate for skin deficits of magnesium, manganese, copper, silicium, zinc and iron.

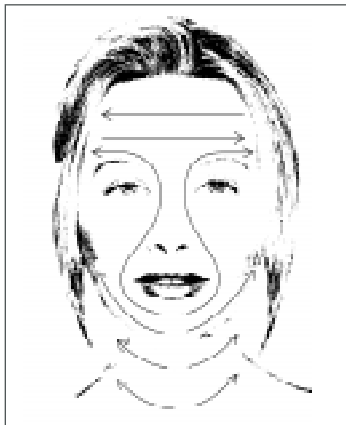

Your skin maintains its integrity...

An enveloping, divine cream... FEMINISSIME

A rich and velvety texture, scented with black currant flower, envelops your skin with comfort. It is "retexturized", soft, and silky.

Directions for use From age 40, one or two applications daily, on the skin the neck and decollete, thoroughly cleaned with HORMETA Cleansing milk or Freshener tonic adapted to your skin type.

After application of the treatment, perform the following active movements 3 times:

1. Remodel the oval of the face with the back of your hands starting from the chin and moving up to the ears.
2. With your fingertips, smooth over the nasolabial folds (smile lines), from the chin by working upwards along the nose, between the eyebrows (the lion wrinkle). Smooth over the base of the forehead ending with the temples.
3. Smooth over the forehead using the flat of your hands, alternatively from one temple to the other.
4. Smooth over the neck with the back of your hands while moving up towards the scalp.
5. Smooth over the neckline with the flat of your hands.

WHAT WOMEN NEED...

...A CREAM THAT KEEPS ITS PROMISES.
SCIENTIFICALLY PROVEN, VISIBLE RESULTS.

Clinically tested under dermatological control, FEMINISSIME cream meets women's needs.

The skin is immediately remoisturized : + 83% in 3 hours.
